PMP35R

OPERATION

Open the Back Cover by pressing the Open Button.

Insert 4 x"D"cells then close the back cover until it locks. Now your megaphone is ready for action.

To activate the megaphone, press the ON/OFF Button on the Back Cover.

When using the megaphone, place your lips as close as possible to the megaphone or the megaphone on the hanger inlet. Adjust the Volume Control to the desired level without causing any howling or feedback.

Press SIREN button to activate alarm. To switch off the alarm, press the same button again, or press the ON/OFF button.

Adjust the volume control to the min. Press the REC button , the indicator light will be on. Now your megaphone is ready for recording.The longest record time is about 10 seconds. Press the same button after you finish recording. Press the PLAY button to activate the recorded materials circularly.

PRECAUTIONS

Ensure correct polarity of Cells.
 Please use new batteries/cells always.
 When the megaphone is not in use for a long period, remove the dry cells.
 Drained cells will not give sufficient sound volume.
 Replace cells at regular intervals, for optimum result.
